## R. C. MARSHALL URGES FEDERAL AID FOR ROAD

Agrees With Idea Dominion  
Should Help to Finish  
Jasper Highway

Hearty agreement with the idea that the Dominion government should immediately come to the assistance of the province in finishing the Jasper highway was expressed on Thursday by R. C. Marshall, former M.L.A. for the Dominion government in the Edmonton Dominion by-election of last spring.

Mr. Marshall, who is a member of the Chamber of Commerce special committee on parks improvement, declared that "I think it is in the interests of the Dominion government to give the province more aid in respect to park-to-park roads. I don't know of an easier way to get it than through tourists. The Dominion government should be well advised in their own financial interest to give more financial aid to the province and its roads."

"I do not agree with the policy of charging money spent in national parks against park road construction in the province," he said. "I agree with the idea of bringing up a controversy over the Jasper highway. But I heartily agree with the idea that the Dominion government should immediately come to the assistance of the province in finishing the Jasper highway."

## MAROONS GIVEN RIGHT TO QUIT FOR ONE YEAR

By W. H. DIMSLEY  
Canadian Press Staff Writer

NEW YORK, Aug. 25.—The National Hockey League Board of Governors today granted the financially-harassed Montreal Maroons the right to suspend operations for one year. The league will operate this season with seven teams. The league board also granted an application made by Thomas P. Gorman and F. P. Common, K.C., of Toronto, to transfer the club to St. Louis on an optional agreement. Common reported back to his directors this afternoon and then applied to have the team franchise temporarily suspended. For the past two seasons the Maroons have suffered financially due to poor hometown support. Last winter they finished deep in the cellar of the Canadian hockey league. President Frank Calder said the Maroons would dispose of their players to other teams in the league "as they saw fit." It is not known whether the players will be sold outright or kept as the property of the club in case it should decide to operate in 1939-40.

## Lewis Strives To Acert Union Split In Auto Workers

WASHINGTON, Aug. 25.—John I. Lewis, striving desperately to avert a permanent split in the United Automobile Workers' union, advanced a series of peace proposals Wednesday to the embittered faction fighting for control of the group since last fall's industrial organizing drive.

The C.I.O. chairman talked for more than five hours with Homer Martin, U.A.W. president, about a possible settlement, and then called in the opposing faction, represented by three expelled union vice-presidents.

## Nascope At Thule

CHURCHILL, Man. Aug. 25.—R.M.S. Nascope, government supply ship, arrived at Thule, Greenland, last night after a 10-day voyage. The ship, which was built for Arctic Bay and then Fort Ross, from where she will head north for Halina.

## Soldiers' Hostess

Jenny Morris

OTTAWA, Aug. 25.—Hostess of hundreds of Canadian soldiers at her London home while they were on leave from duty in the front lines, Jenny Morris is the guest of Prime Minister W. L. M. King for a dinner in honor of Lord Stanbury, secretary of state for the dominions. Miss Morris is the daughter of a coal-merchant, four during which she will see new acquaintances formed in the war years, with members of the famed Princess Pat's.

United States authorities already have indicated the possibility of some form of subsidy which would be necessary to market efficiently the 100,000,000 bushels of wheat that Canada has agreed to export this year.

Canada's exportable surplus is estimated at 200,000,000 bushels. It is believed the United States experts will favour the possibility of a loan to Canada.

## Czech Affairs At Crisis

By J. F. SANDERSON  
Canadian Press Staff Writer

LONDON, Aug. 25.—A decisive development in the issue between the Czechoslovakian government and its Nazi-supported, autonomy-seeking Sudeten German minority, appeared imminent today after a hurried conference with Berlin. German officials here, diplomatic observers expressed belief a crisis probably had been reached, pointing either to a complete agreement on a friendly basis or an open break between the Prague government and the Sudeten Germans.

LONDON, Aug. 25.—Important developments in the Czechoslovakian situation may follow conference today between C. T. A. Ashton-Gwatkin and Viscount Halifax at the foreign office.

Mr. Ashton-Gwatkin, adviser to Viscount Burrenham, Great Britain's unofficial mediator in Prague, flew to London yesterday shortly after a long interview with Lord Halifax, leader of the Sudeten German minority in Czechoslovakia, today by Lord Halifax, secretary of state, with Sir John Simon, Chancellor of the Exchequer, also present.

OFFICIAL DENIAL  
It was officially denied any conference between Mr. Ashton-Gwatkin and Lord Halifax. He returned for personal reasons and Lord Halifax secured the occasion of his visit for the conference.

Central Europe, however, was the chief topic of conference between Prime Minister Chamberlain, Lord Halifax and Sir John Simon yesterday.

The Daily Mail (independent) suggested Great Britain had de-

# Radical Socialist Party Backs Caladrier In 40-Hour-Week Flare-

## FRENCH CHIEF SUPPORTED IN DEFENCE PLAN

### President's Warning Impending War Danger Pacific Political Factions

PARIS, Aug. 25.—The radical Socialist party has president, Premier Edouard Daladier, but backing for his plan to modify the 40-hour week law Wednesday after he had warned that German military preparations made necessary a strengthening of France's defense measures.

An abstract of his speech, delivered behind closed doors to the party executives, outlined the Premier's expanded in detail the military preparations of Germany, citing the effects on her arms and showing the accelerated rhythm of war industries beyond the Rhine.

**COMPARES FIGURES**

"He compared these impressive figures with the constant intensification of production to results now obtained in France and concluded with the urgent necessity of increasing the potential strength of France."

"The rudiments of peace require that France be strong," he told his hearers.

The executive committee of the party, a Conservative unit of the cabinet, which would have been opposed by the Socialists in the House of Deputies, then adopted a motion assuring Daladier of "complete confidence," and calling for the creation of a "front" which seeks the safety of liberty, of peace and of the Fatherland."

### AFFECTS 8,000,000

Daladier, who on Sunday announced his plan to alter the 40-hour week law which now applies to most workers, said that the principle of the short work week would be maintained, but that the longer hours would be applied only to industries where absolutely necessary.

The executive committee of the dominant Socialist party, however, announced it would oppose "all attacks on present social legislation," and would demand an extraordinary session of parliament to vote on the plan.

Marie Perle, a French journalist, who reported that stevedores of the Mediterranean ports of France and Italy, African workers, and others, were preparing to oppose all overtime work, said that the 40-hour week law stood against the 40-hour week.

### U.S. Government Would Support Subsidizing

WASHINGTON, Aug. 25.—Agriculture Secretary Wallace said Wednesday the United States expects departmental support for the program to subsidize the export of 100,000 bushels of wheat this week ago.

He indicated the government would offer to subsidize sales in world markets.

The export program, he said at a press conference, will have the effect of "stimulating the demand for our wheat."

He would not amplify this statement when reporters asked him whether the State Department had had previous opposition to export subsidies.

### Johnson Will Talk Highway To Roosevelt

### Much Surveying Required To Build All-Weather Alaska Road

WASHINGTON, Aug. 25.—Louis Johnson, assistant United States secretary of war, said Wednesday that "much surveying" would be required before construction of an all-weather highway to Fairbanks was possible.

Johnson made the comment on his return from an air trip to Alaska, where he had been on a tour of inspection, between alternate routes across British Columbia between Seattle and Fairbanks.

### NON-COMMITTAL

Accompanied by J. Monroe Johnson, assistant secretary of commerce, the war department official made an eight-day 9,000-mile survey of the route of the proposed road.

At Fairbanks and several other points he was inspected for an army air base which construction is sure to go there in the non-commitment on whether he favored constructing it now. Johnson said he would report to President Roosevelt on both points.

### PLANS THE ANSWER

"Plans as the answer in transportation problems in Alaska," Johnson said. "There were 30 at Fairbanks alone, and the service could be done the territory that is to be developed."

Johnson voiced enthusiasm over the road project, on which British Columbia officials have been negotiating.

"Some Alaska scenery is more beautiful than any I have seen of Switzerland," Johnson said. "Either by air or road many more people are sure to go there in the future, to the economic benefit of the territory."

**Weak Fighting Causes Death Of Officer**

HENDAY, France, Aug. 25.—Major Jose Balve, an Inaugural cavalry officer, last night was reported to be dead at Burgos for having failed to go up a strong enough fight against the Spanish Government Elvo river offensive. Balve was said to have been killed before a counter-attack by the general staff of an Inaugural division.

**Wake Up Your Liver Bile**

And You'll Jump Out of Bed in the Morning Ready to go

The above is not a joke. It is a fact. If you have a weak liver, your bile is not working properly. This is just one of the many ways in which a weak liver can affect your health. It can cause indigestion, constipation, and a general feeling of weakness. It can also lead to more serious conditions if not treated.

### The Relief Cut

The point to be remembered about the eight per cent cut in the provincial grant for relief is that this reduction, if made effective, will increase the burden for all cities in Alberta, and increase it for no fault of their own. They are innocent victims of a tangled web of confusion from the federal and provincial authorities.

Because the Dominion has cancelled its monthly grant of \$80,000 to the drouth areas in Alberta, the province is taking similar action and in order to bear the added burden thus imposed on it, is reducing its aid to cities from 65 to 60 per cent of total relief costs, as from August 1. The several city councils now have to deal with the government offer. The cut would pare down the Edmonton grant from \$33,000 to about \$47,000 a month.

The mayors who heard this verdict Tuesday at their meeting with the Alberta government probably found it hard to accept. They protested against the Dominion reduction. Mayor Davison of Calgary pointed out that the federal grant for direct relief in the province still stands unchanged; it is only Ottawa's help to the drouth areas which has been cut on a new basis. But if the municipalities are already bearing burdens beyond their powers—and all admit that—it seems unjust to pile up still more problems for harassed city councils to solve.

The whole question shows the mudslide into which relief administration has fallen. For years the task of caring for the unemployed has been before governments. Every party has accepted this responsibility as one which transcends all others in importance. Yet, even at this late hour, a policy of muddle and muddle is made to do service for a clean-cut and efficient program.

Reforms in the method of paying for relief are urgently needed and are long overdue.

### Looking Ahead

Canada has a vital concern in the plea of Professor Keynes that Britain should consent to store the Empire's surplus food and raw materials to the value of five hundred million pounds sterling. With the best crop since 1932 almost ready, the problem of finding markets is again the major task of the country.

The Cambridge economist did not propose a flimsy or shallow scheme to prop up his plan before a congress of scientists at his university. For many months he has been crusading for this project. He claims for it three great benefits. It will enable the government, which will hold a lien on the goods, to plan its imports and stabilize prices; it will make the Empire act more as an economic unit; and it will be a reserve in time of war.

The value of unlimited food supplies in war, for Mr. Keynes an impressive but minor point, becomes for Mr. Lloyd George, another apostle of this scheme, the factor of supreme importance.

Recently he was surrounded by the board of grain supervisors provided that no grain may be shipped out of Alberta without a permit from the board.

The Swift Canadian Company this week shipped fifty cars of pork and beef to England.

But the plan will fail of its purpose if it attracts only a few zealots, arouses little enthusiasm in the community, and is pursued in a narrow and parochial spirit. Rather should these classes be the first step to the creation of a labor college in Edmonton.

There is nothing startling or impractical about this proposal. Edmonton has a strong labor movement. It has all the facilities of a university city. President Kerr told the Canadian Club some months ago that the university would accept as a noble honor the task of fostering genuine and vital adult education activities. Its extension department has unrivalled services for aiding such work and it never yet has been appealed to in vain. Professional men and service clubs would probably also join in the project, if it were made a definite experiment in communal co-operation for adult education.

It is a great opportunity. If the leaders of the Workers' Educational Association have the vision suited to their office they will grasp it and act to bring the dream of a labor college for all working people closer to reality.

### Fireworks Ahead

Leon Trotsky, chief enemy of the Soviet according to believers in the Stalin dogma, certainly has a genius for doing queer things. He once swam across a lake to avoid being interviewed. On another occasion he was seen by his captors by so tiring them out in a long argument that they fell asleep. But never in his career has he been so strange as in Mexico a few days ago when he announced he is writing a biography of Stalin.

Some primitive tribes fashion war or wooden images of their hated foes simply for the pleasure of sticking sharp pins in them. Trotsky will enjoy the more lingering delight of harpooning Stalin for some three hundred pages. The book will be as much a labor of love as having Satan propose a toast to virtue.

The Japanese army in China has now advanced to the point where it has to fight on two fronts, one of which is the rear.

### The Passing Show

By J. S. COWPER

Newspapers don't get all the news. Dr. Mack Eastman, of the League of Nations, recently, on his holiday in Canada, divulged some of the "inside dope" about recent Austro-German diplomacy. It revealed that the master blunder of Europe, on the day German troops were marching against Austria, was that Dr. Eastman, their commander-in-chief, had no orders.

They were not to open till they came in sight of the frontier. When they opened them, they read orders they had been instructed them not to cross the frontier if Austrian troops were massed against them.

You know what had happened. The Austrians, hearing of the approach of the Germans had withdrawn troops. Townspeople, anxious to stand in well with the expected invaders, were giving exaggerated accounts of the army and crying "Heil Hitler!" So the Nazis went on and took possession. It was the story of the advance on the Rhineland over again, with bluff winning.

The other day, eleven-year-old Norma, the Balance who lives outside Nanaimo on Vancouver Island, saw a large police dog worrying a calf in his father's field. The youngster picked up some big stones and attacked the "dog." His little terrier plucked up courage too. Together they put the big dog up a tree. When Norma's mother arrived he found the dog and collected \$15 bounty for killing a big cougar. Courage counts, whether in attacking or resisting Nazis. How far is Europe? Is Czechoslovakia going to play the part of the youngster who saw in the cougar only a police dog attacking his calf?

### Fireworks Ahead

Here's the other side of the picture as disclosed by Dr. Eastman, who before appointment to the League of Nations, was a lecturer at the University of British Columbia. Last night, he says, Hitler planned a similar march against Czechoslovakia. France and Russia took steps to prevent it. They tried to get the Czechs to mobilize for a general mobilization should the Nazis bluff.

### Old Country Letter

By J. E. MCROSS

LONDON, Eng.—(By Mail)—As stated in a previous letter, the League of Nations Council is seeking powers to enable it to levy a rate on land values and so tax the great ground landlords of the metropolis.

Arguments very familiar in Alberta are advanced. Every public improvement, it is urged, increases the value of the land and the owner ought to contribute to the cost. But while it seems at first sight perfectly just to levy on the ground landlords it is not so easy to make such a rate equitable.

With the freeholders who are occupants are a J. E. MCROSS already paying on rental value, which includes the value, so that an additional tax on land values would be double taxation.

Again, although local improvements increase site values, it by no means follows that the ground landlord is the one who benefits from them. The land is leased to the owner of a building possibly for a long term of years—anything from 75 to 99 years—so that the ground rent cannot be increased until the lease falls in.

To make a site value tax fair, therefore, according to the value of the property as a whole, the lease had to be taken of the years the lease had to be taken.

On the other hand, the municipality is able to take immediate advantage of the increase in the value of the property as a whole, by levying on a higher rental value.

## Secretary Of State Feted At Dinner

OTTAWA, Aug. 23.—Formal welcome from the Government of Canada was extended to Lord Stanley, British secretary of state for the Dominion, and Lady Stanley on Wednesday evening by Prime Minister Mackenzie King, host at a private dinner at the Ottawa Country Club.

Guests included Lord George, governor-general of Australia, returning from a three-month visit to England, Sir Edward Elton, British Air Marshal and Wing Commander Robb of the British military navy arriving in Canada.

Miss Jenny Morris, who is making a tour of Canada for a series of reunions with veterans who served in the war, and her mother, who is also in Canada, were also present.

The Dominion secretary and his party, including Lady Stanley and Lord George, will be in the evening for Toronto where he will open the Canadian National Exhibition.

## 400 Attend Hudson's Bay Annual Picnic Gathering

### VICTORIA PARK IS BRIGHT SPOT FOR ASSEMBLY

#### Afternoon and Evening In Spent In Gay Sport and Pastime

Victoria Park, bright with sunshine and colorful with jaunty sports costumes, was the setting for an interesting outing on Wednesday afternoon of employees and managers of the Hudson's Bay Company. Four hundred gathered for their annual sports picnic.

Sponsored by the Beaver Club, the picnic was another of the many attractive affairs that mark the social life of the employees of the company.

Employees, their wives, children, friends and sweethearts gathered to enjoy the eventful program of sports—distance races, novelty races, competitions and contests—arranged for their entertainment.

### LABORS FORGOTTEN

Lothions, notions, meats and house furnishings, and all the many problems that attach themselves to the business of buying and selling were forgotten for one day summer afternoon, as they entered with eagerness into the day's proceedings.

Horns blowing, whistles shrieking and bright balloons floating into the air, the scene was a gay one.

### RACES FOR KIDDEES

For the kiddies auto races and contests were arranged. Prizes were presented to the winners following each event.

In all there were twenty-two items of sport on the day's program. At six o'clock came the "super time" and supper's ready—step right this way" brought an end to the afternoon's event.

In the evening, from dusk until dark, other interesting things were arranged. There were horse shoe pitching contests and a mixed softball game to interest both adult and younger guests.

One of the highlights of the program was the department managers and store executives' public contest, which drew from the spectators many interested comments as the "experts" vied for honors. Following this a further event was arranged when all of the pickers participated.

### TELLS HOW

"All you have to do," announced general M. V. Hicks at the commencement of an event, "is to pick the egg up into the spoon and keep it there to the end of the track." The event was for married women only and provided much merriment as the race progressed.

Whether the races were fun, too, as were the three-legged contests, peanut chewing contests and soda cracker-whistling events.

Honorary patron, Mr. J. K. Hill, manager of the store, was present for the affair, as was Mr. G. Saunders, president of the Beaver Club. Judges for the events were Mr. E. Burnett, Mr. V. Baird, Mr. W. McCullough, Mr. P. Apps, Mr. E. Scamman and Mr. J. Palmer.

Official starter and master of ceremonies was Mr. D. Victor Hicks, advertising manager of the company, and announcers were Mr. H. Ingram and Mr. J. McNeil.

Personnel of the sports committee were Mr. G. Skinner, chairman, and Mr. G. Hayes, Mr. H. Henderson, Mr. J. Canty, Mr. J. Soloway, Mr. C. Thomas and Mr. M. Graham.

Comprising the supper committee were Miss E. Vesey, chairman, and Miss H. Brown, Miss E. Crystal, Miss B. Krack, Miss P. Deltombe, Miss W. Gullen, Miss J. Taylor, Miss K. Daws, Miss G. Walters, Miss M. McCready, Miss H. Young, Miss J. Lohman, Miss V. Cuthbertson, Mrs. E. Rogers, Mr. H. Allard and Mr. J. Chatter.

### My, My, What A Picnic That Was

They didn't enter for a beauty contest, but if they had there would have been some great trouble in making selections at the Hudson's Bay annual picnic held Wednesday afternoon at Victoria Park. In the above layout, reading from left to right in front row, are Winnifred Graville, Winnie Gullen, Ann Truman and Barbara Stewart. Back of them stand "Jimmy" James, Mabel Colney and Margaret Ameringer. The man

with his eyes shaded and dazzled by the beauty beneath him is Manager J. K. Hill, who also had a grand time. At the left lower is—no, you guessed wrong, not a carnival show but—Advertising Manager D. V. Hicks, cutting up at the party with Margorie Nye—and the tumble bug you see at the right is very busy Barry Williams, 21 years old, who found a lot of fun in sunbathing himself right into the camera. A grand time was had by all.

### The Inquiring Reporter

If you undertook to sell ice boxes or straw hats to an Eskimo, what approach would you use?

A Seattle salesman, Jim Moran, is going to Alaska and says he will do just that—sell ice boxes and straw hats to the Eskimos. Someone told him it would be the peak of salesmanship.

So The Bulletin's Inquiring Reporter asked a few citizens just what their sales approach would be for such a problem. Below are their answers:

**DUNCAN BLACKIE, manufacturer:** I'd start out by telling him about the way they eat watermelons in Alaska. Then I'd tell him about the Chinese situation in Africa and shift from there to the Spanish situation in Italy. By that time he'd be so confused he'd buy an ice box and probably ask me what I'd like. I was running on so he could vote for me.

**ALEX HAMMILL, clothing salesman:** I'd persuade him he could use them when he came to the big city. I'd give him my card and tell him to get me up when he was in town. I'd also explain the advantages of the ice box to keep his fish in. By showing him how cheap his ice bill would be.

**HERT MILLAR, salesman:** I'm too honest a salesman to sell anything unless I like it. If I perceived that a big fish was being treated such a heinous fraud, I'd worry and worry and worry about it. It would rest heavily on my conscience.

**TOMMY BELLAMY, margin clerk:** I'd start out by selling him a tour to Panama so he'd get the idea.

**PAUL FUGG, margin clerk:** New demands must be created for new goods. I'd start in by getting his dogs until he saw I was a true dog fancier. He would then recognize me as a fellow member of the junior league and a marginal account would be established. I would then show him how fine all the dogs of his team would look with straw hats, with holes cut for their ears like de-

livery horses, to protect them from the heat of the midnight sun.

**MINA DUFFY, managers:** If I had a smile like the Inquiring Reporter, I'd be able to sell the Eskimo anything from ice cubes to sun pants. But I'd rather go to the south sea and sell the Eskimo mauls.

**G. D. "NICK" CARTER, real estate man:** I'd approach the Eskimo about June 21, when there is a 24 hour day of sunshine in the Arctic. I think that would be my peak season for straw hats and I'd plan to make a cleanup while the sun was shining.

**AGNES BRADLEY, stenographer:** Oh, I'm afraid I haven't enough to sell an Eskimo an ice box. (SHE—Oh, I don't know).

### BLIND TO PROFIT AT GOLF LINKS

Competition club will hold its annual golf tournament, all proceeds for the Canadian National Institute for the Blind, on Sunday, August 28, at the Highlands Golf Club, it was announced by club officials Thursday.

The tournament is open to all golfers. It is not necessary to register your entry in advance. Twenty-five prizes will be given away and there are no dueling golfers in the Hudson's Bay Company's store. The prizes include a trophy for annual competition.

**Fair and Warm Is New Forecast of City Weather**

Clear skies, warm sunshine, and a welcome forecast of "fair and warm" greeted Edmontonians when they clambered out of their downy couches Thursday morning and headed toward the city hall.

Clouds began about 10 a.m. and a few flakes of rain fell at 11 a.m. and 12 a.m. The temperature was 70 at 10 a.m. and 72 at 11 a.m. and 74 at 12 a.m.

## The Record Buster

By POP

Gather 'round, now, all you readers who want to learn how to build record-breaking under-airplanes and I'll give you a few hints that will come in handy.

You'll remember that yesterday I told you that I have already started work on mine and found that the Jimmy Allen Official model building kit is one of the best I have ever worked with.

I have finished cutting out all the wing pieces and have already assembled the center wing section. I just about made one or two mistakes, but fortunately I caught myself in time and now I am going to pass some of the information along to you.

I hope that you already have your plane building kit so that we can work along together. If you are still waiting to get your kit, clip this column every day and make it in an old scribbler or something like that so that you will have it to refer to when you start to work.

The first thing you have to get is a board about three feet long and ten inches or a foot wide. This will be your work bench. I am sure that you will be able to find a board like this around the house somewhere. Choose a board that is of solid wood, which is as smooth and free from grain as possible.

Then look through the attic or down in the basement until you find some of your old scribbles or drawing pads. Get several of the smooth covers off the scribbles and as many of the cardboard backs off drawing pads as you can find. When it comes time to start to cut out the parts which are printed on the two sides of the cardboard, these pieces of cardboard will come in handy. Tomorrow I'll tell you what to use these for.

## Minute Make-Ups

By V. V.

Here's a quick and soothing pick-up for feet that are hot and tired at the end of a sticky day. After your bath, match your bottle of chilled astringent from the refrigerator and slosh it generously over your feet. That cooling little balmage will give you magic.

Answer: The American nickel contains approximately three times as much copper as nickel.

The earth moves around the sun at a speed of 18 1/2 miles per second, and a meteorite striking head-on, strikes at a speed of 18 1/2 miles per second, plus its own speed.

Yeah, I'd kinda like to be a king for a while. But there's no future in it.

## Tops In The Trade - - Or Don Budge And The World's Best Forehand Smash

The forehand smash at the height of perfection is what the above action strip of Don Budge might easily typify. Caught practicing at Westchester Country Club, Rye, N.Y., the world's number one amateur plays the stroke through. From left to right: One, he reaches the ball's line of flight and draws his racket back for the stroke. Two, he plants his feet and balances his left arm. Three, his racket reaches the maximum of backswing as the ball approaches. Four, the racket swings through the ball. Five, the racket meets the ball with all his force behind the swing. Six, the ball is returned for a perfect placement as Budge gracefully follows through.

### Fatal

Member of a crew repairing a power line near Oakland, California, Rogers J. Vaughn, accidentally grasped a live high tension wire and was burned to death. This picture shows other workers, rescued in the crisis and away from the steel tower, removing the body with black and white. One of the victim's fellow-workers, Claude Vorse, was himself strangled while attempting to reach the body.

### Comedy At End

OLIVER HARDY STAN LAUREL The film comedy team of Stan Laurel and Oliver Hardy was broken up by announcement from the actors' employers, Hal Roach Studios, that Laurel's contract had been terminated and that Harry Langdon and team with Hardy for future pictures. The sad-faced Laurel and his fat and merry companion are pictured here together at a 'supper party' in Los Angeles.

Dramatic Shots Highlighting New Japanese Drive On Hankow... First Picture of Russo-Jap Sore Spot

Amid Shell-Splinters Sons Of Nippon Advance

Shattered against the stone and splintered of advancing Chinese until this Japanese machine-gun crew made the city Hankow a few hours ago the picture reads. With the picture, we have a first-hand view of the Japanese drive on Hankow.

Sitting on the front porch of a New York City hotel, Sally Clark, sister of Mrs. John Roosevelt, sings a song to her fiancé, George Xavier McManahan, of New York, after the engagement of the couple had been announced. The wedding will be held on January 6, after Sally, a professional singer, finishes an engagement in New York.

### Defenders

Defenders advance toward their guns to beat off an attack from an "Eastern" squadron during recent air maneuvers. In full fighting kit, these aerial defenders of "Rockland" the area between the Humber and the Great Ouse, fought under actual attack conditions.

### Fire Aids Ravages Of War Along Yangtze

On the outskirts of Kiating, Japanese artillery continued to pour a rain of shells into the city while flames already licked at the suburbs of the doomed town. This remarkable picture was made inside fired by a Japanese photographer just behind the advancing front of the Japanese troops. Kiating was regarded as a vital success in the rejuvenated Japanese drive on Hankow.

### For This Barren Hill, Russians And Japanese Died

Six tiny dots atop this barren East-Asian hill are Russian soldiers. It is Changtong Hill and in the fight for possession of it hundreds of Russian and Japanese soldiers died. The hill situated on the disputed border between Siberia and Manchukuo made it a fulcrum on which world war rested. Though a temporary armistice has been made, this hill remains a menace to peace. This is one of the first pictures of the Russo-Japanese struggle in South America.

### Socialite To Wed

Sally Clark, sister of Mrs. John Roosevelt, sings a song to her fiancé, George Xavier McManahan, of New York, after the engagement of the couple had been announced. The wedding will be held on January 6, after Sally, a professional singer, finishes an engagement in New York.

### Eagle!

Unopposed for Worthy Grand President of the Fraternal Order of Eagles at the Grand Annual convention in Cincinnati was Dr. Fred C. Daley, of Brazil, Ind. Dr. Daley was Worthy Grand Vice President of the order last year.

### He Dreads Return To The 'Dry Guillotine'

Having made a spectacular rescue from Devil's Island, and found literary fame and fortune with his best-seller, "Dry Guillotine," Rene Belenoff, above, appeared in Washington striving to avoid deportation to France. Deported, he fears he would be transhipped to serve the rest of his life in the notorious penal colony of French Guiana. He will make a plea direct to President Roosevelt, backed up by a petition bearing thousands of names. At left, Belenoff is pictured as he looked on Devil's Island, to which he had been sentenced for thievery.

### Carrier Ends 'Shakedown' Cruise

Manitowish \$100,000 "roast" for navy planes. Uncle Sam's newest aircraft carrier, the Enterprise, makes a striking picture above as she plows back in her berth in Hampton Roads, near old Point Comfort, Va. After a "shakedown" cruise of six weeks, she is shown in this picture.

Virginia Cages Laid down at the Newport News, Va., shipbuilding yards in 1931, the Enterprise has a displacement of 10,000 tons and a speed of 34 knots. Members of her crew, massed on the huge flight deck, are shown in this picture.

**Man Injured When Car Crashes Into Parked Truck**  
Ed. Clarke, 2644 105 street, sustained injury when the car he was driving crashed into the rear of a truck parked on 27th avenue near 108th street shortly after 8 p.m. Wednesday.

Clarke told police that he was blinded by the sun and that before he knew the truck was there he had crashed into it. Police reported that the truck, owned by Elmer Tiffin of Forebush, was parked about two feet from the curb.

Other occupants of the car Clarke was driving because the engine had stopped and he was away getting a mechanic when the collision occurred.

**Relief Committee Completes Probe: Preparing Report**  
Returning from the city's four of the Peace River country, the special committee of the legislature, appointed at the spring session as investigators into relief problems and complaints, will soon prepare a final report for presentation to the provincial government.

Revision and amendment of the provincial relief regulations will probably be recommended by the committee, it was reported Wednesday.

The committee, consisting of A. V. Bourcier, M.L.A., Lee Roy Anst, as chairman, and Dr. J. Robinson, M.L.A., Medicine Hat, and Mrs. Edith Gault, M.L.A., Calgary, held sessions in various parts of the province, with periodic recommendations to the provincial government.

Wayes reach heights ranging from 25 to 30 feet during the more turbulent storms at sea. The highest wave ever recorded reliably was 30 feet, and was seen in 1922.

# Three Men's Futures in Public Life Hinge on Trial of Tammany Chieftain

Accuser, Accused And Their Judge Each Basks In Limelight

Just as in the theatre it takes both a strong play and stellar players to make a "box-office hit" so in New York's dramatic Hines trial are crowd-tured equally by the dramatic events unfolding in the court room and by the colorful personalities of State Supreme Court Justice Ferdinand Pecora (right), Tammany Leader James J. Hines (center) and District Attorney Thomas E. Dewey (left).

## PENSIONS FOR ALL AT 60 IS N.Z. PROPOSAL

Government's Social Security Bill Now Before Parliament

WELLINGTON, Aug. 25.—Pensions for all persons at the age of 60 are provided under the new Zealand government's social security bill, now before parliament.

It provides that ultimately all persons of 60 shall receive a pension of 30 shillings (£7.50) weekly. Other advantages proposed include disability, sickness and unemployment benefit. The scheme also embraces free hospital and medical treatment for all.

A special section provides for maternity attention and maintenance in hospital for 14 days.

A married couple, both aged 60 or more, will receive £13 (\$35). They may also receive £1 each from other sources. If their income other than pension exceeds £1, their joint pension will be reduced so their total income does not exceed £4 weekly.

30 SHILLINGS WEEKLY  
A married person whose spouse is less than 60 years of age may receive a pension of 30 shillings weekly; provided the pensioner's other income does not exceed 30 shillings.

The scheme applies to all persons more than 16 years of age. It will be financed by an annual registration fee of £1 and a charge of £1 of the pound of all salaries and wages.

DEALS IN APARTMENT  
Weinberg, a henchman of Schultz, had testified he paid Hines \$200 a week for protection, starting in the spring of 1932. The payments, he testified, took place frequently in Hines' apartment, Central Park West and 164th street.

"Did you know," Striker suddenly shouted, "that Mr. Hines never moved into this apartment until the first day of October 1932?"

DEWEY SURPRISED  
District Attorney Thomas E. Dewey and his associates called a last surprise. For 14 days Dewey had led Striker through the maze of the Schultz policy operation, drawing descriptions of various occurrences, the payment of money to Hines, the story of the transfer of policy which raised the policy books, and the story of the magistrate court "fixes" involving Magistrate Milton Caplan and the late Magistrate Francis J. Erwin.

"Will you stand, Mr. Hines?" Striker asked.

Hines stood, a sturdy, broad-shouldered man.

"Look at Mr. Hines in the face," he directed "and repeat again whether you saw him or not either at or in his apartment house between the month of April and the first of October, 1932."

Weinberg looked and answered quickly, "I did."

"You know you lie," he said.

Weinberg Denies  
NEW YORK, Aug. 25.—Unsettled under a making cross-examination, George Weinberg, 36, business manager of the old Dutch Schultzs, today denied accusations by counsel for James Hines that he stole \$200,

## STEER DIVES FROM SEVENTH STORY WINDOW

INDIANAPOLIS, Aug. 25.—A big Texas steer, yearning for the open range, dove from a seventh story window of a packing house into the White river. The steer swam the river, trotted through town and put on several impressive bull fights with bystanders who played cowboy and gave chase. Finally two policemen shot and killed the animal.

## DRIVER SAVES TWO CHILDREN BURNING TRUCK

Motor Collision Causes Oil To Explode—Man Acts Fast

MOOSE JAW, Sask., Aug. 25.—Keith Ewan of Moose Jaw probably saved the lives of two young children Wednesday night when he pulled them out of a blazing, diesel-laden truck a few miles east of here. The truck exploded a few minutes after it was in an accident and broke into flames.

The fire broke out when Ewan stopped sharply to avoid hitting a truck. The passenger car, which carried Alberta Indian plates, crashed off Ewan's rear view mirror. They did not learn the name of the driver.

PUT OUT FIRST FIRE  
Names of the two children could not be learned immediately. The cab of the second truck caught fire but Ewan and Rodenbusch promptly put out those flames before they could spread to the tank. Both drivers received superficial wounds, but caught fire.

When Ewan saw his truck was after he tossed one of the children out of one door of the cab, grabbed the second youngster and jumped out of the other door.

The truck left the highway and came to a standstill near a telephone pole, where it caught fire.

Difficult in the truck exploded twice and flames rose high in the air as the oil burned furiously with a black smoke.

TOKYO'S WORST PLANE DISASTER  
DEATHS NOW 28

TOKYO, Aug. 25.—The death toll of Tokyo's worst aviation disaster yesterday between a transport plane and a training plane which plunged into the sea, rose to 28.

At the time, 10 workmen were killed and four men in the planes were killed, while nearly 100 were injured.

Phelan Coming West  
OTTAWA, Aug. 25.—V.C. Phelan, president of the Civil Service Federation of Canada, left here last night on a six-week trip to western Canada on official business.

The Dances, Sweden, and Norwegians are the world's heaviest coffee drinkers.

## UNIONISM IS ADVANCING IN AGRICULTURE

System Of Collective Bargaining Spreading Farm Economists Told

ST. ANNE DE BELLEVUE, Aug. 25.—While progress is being made in the field of agriculture, F. W. Van Buren, of the international labor office at Geneva asserted today to the international conference here of agricultural economists.

The system of collective bargaining in agriculture is spreading further," Van Buren declared before more than 400 delegates, representing 18 nations at the seven-day convention.

WIDESPREAD AGREEMENT  
The European expert said it might be taken as "significant" that widespread agreement existed now on the principle that there should be collective bargaining, or legislation, on farm working conditions. Previously it had been up to the individual farmers to settle this point.

"During recent years," he added, "legislation on hours of work, minimum wage regulation and holidays with pay is to be noted in a considerable number of countries. Systems of social insurance and family allowances are also gaining ground."

But even with these developments, Van Buren found conditions of work for farm labor "far from satisfactory." At a striking example, he declared even in those countries outstripping others in the way of social legislation for the farm, the average agricultural worker's wage was still only "thirty-fifths of what is considered by experts to be a reasonable minimum of labor in general."

DIFFICULT PROBLEM  
J. F. Dunson, Scottish delegate, also speaking on farm labor, declared it was "difficult" to see how reasonable social standards for farm help could be established under the present attitude.

If the standards are to be raised sufficiently to remove the gross disparity between those of industrial and farm workers, then the activity of labor will have to be greatly increased," he asserted.

He had been the standard set by the farm, which was "very low," and what limitation of working hours there had been had made "little headway on the long working day."

Plan To Store Wheat, Gasoline On Lake Bottom  
GENEVA, Aug. 25.—A member of the Swiss federal parliament has proposed to the national defense committee a plan to store reserves of wheat and gasoline at the bottom of Swiss lakes to remove them from the danger of destruction by enemy attacks. He urged the committee to build huge tanks which would be filled with the needed supplies, then sunk in the lakes.

Another Chicago Man Victim Of Gang Vengeance  
CHICAGO, Aug. 25.—Paul Battaglia was today shot by the 10th ward of gangland vengeance for the last two months. The 44-year-old resident of the 44th of prohibition days was found shot and right in a west side alley. He probably was killed by a rival gang and dumped out. Gangsters killed his brother seven years ago.
